

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

+ *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.

+ *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.

+ *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.

+ *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at `http://books.google.com/`

Elective Courses.

Juniors are to select eight hours per week, and Seniors twelve hours per week, from the following list. All the courses are open to members of either class unless some limitation is specified. The number of hours specified means, in every case, hours per week. When a course is stated as occupying "both terms," it cannot, if chosen, be abandoned during the year.

I. MENTAL AND MORAL SCIENCE.

Ex-President Porter:—

1 *Philosophy.* [Seniors.] 2 hrs. 1st term.

2 *Philosophy.* [Seniors.] 2 hrs. 1st term.

Professor Ladd:—

4 *Physiological Psychology.* 2 hrs. both terms.

5 *Modern Philosophy.* [Seniors.] 2 hrs. both terms.
A survey of the development of philosophical thought from Descartes to Lotze and Herbert Spencer, with a special examination of the main problems of philosophy, in the form in which they were brought forward by Kant, and have been discussed subsequently with reference to his philosophical thinking.

Assistant Professor TARBELL:—

6 *Logic.* [Seniors.] 2 hrs. 1st term.

Keynes's Formal Logic. This course, which is supplementary to the study of Formal Logic in Junior year, reviews and elaborates the theory of propositions and syllogisms. A large part of the work consists in the solution of technical problems and the criticism of arguments.

7 *Greek Philosophy.* 1 hr. both terms.

Mayor's Sketch of Ancient Philosophy; Grant's Aristotle; Wallace's Epicureanism; supplementary tracts. The pre-Socratic philosophers are passed over rapidly. Nearly half the time is given to Socrates, Plato, and Aristotle, and the remainder to the post-Aristotelian schools.

11 *Political Economy.* 3 hrs. both terms.

Fawcett; Jevons on Money, and American currency and banking.

Courses 8 and 9 make greater demands on the student than 10 and 11. Course 8 is planned for those whose chief interest lies in other departments, but who wish to read the elements of Political Economy. It may well be taken by such men in Senior year. Course 9 is intended to lay the foundation for full study in political and social science. It is a thorough study of the elements, with drill in their application, and demands time much beyond the preparation of set lessons. It should be taken in Junior year. Course 10 is the shortest and easiest. It may be taken either year. Course 11 is a substitute for Course 9—shorter and easier, consisting more exclusively of recitations, but having the same

general purpose. It should be taken in Junior year, and may be chosen by those who, having that purpose, prefer to pursue it by easier stages. All who take Political Economy attend lectures on the leading topics.

12 *Finance.* [Seniors.] 1 hr. both terms.

A second year course in money, banking, public debts, foreign exchange and taxation. The exercises will consist of papers on assigned topics. Open only to those who have taken Political Economy.

13 *Anthropology.* [Seniors.] 1 hr. both terms.

A very elementary course in pre-historic science and the origin of civilization; introduction to ethnology and sociology. Open only to those who have taken Political Economy.

POSSIBLY

You have not noticed the kind of showing the Victors have made in the Road Races for the past four years. Such Victories as Clarksville, Crawfordsville, Boston, Big 4, Buffalo, etc., all 100 mile world events

PROBABLY

need but little emphasis to impress you, as they do us, with the belief that they resulted as they did because the machines on which they were won were essentially correct for all around road use. It is undoubtedly a *fact* that the comparative showing of the Victors in such events as those mentioned, proves them

POSITIVELY

the strongest, lightest running and most durable machines in the market. Victor Bicycles, Tricycles and Safeties are made by the Overman Wheel Co., Boston. Not the "largest makers in the world"--only the best.

High Class Etchings & Engravings

146 and 148 WILLIAM ST., N. Y.

The Remarque Proofs of "SHERIDAN'S CHARGE," after the original oil painting by Allen C. Redwood, engraved by Charles Schlecht, are nearly all sold, and the few remaining are practically withdrawn from the market.

We beg to inform the admirers of this superb steel engraving, representing a stirring episode in the battle of Five Forks, Va., that the next and only other edition has just been published, and is now ready for delivery. This issue consists of fine lettered India proofs at twelve dollars each.

For action, spirit and freedom of drawing, this engraving stands alone among the few pictures of American Battles, and the abandon with which the Union Cavalry make their wild rush upon the Confederate Infantry, is wonderfully depicted in a startling realistic manner. We also take pleasure in calling the attention of connoisseurs in fine Etchings, to some of the new subjects recently issued by us. They are handsomely mounted for the portfolio or for framing, and are moderate in price.

Acid Phosphate.

Prepared according to the directions of Prof. E. N. HORSFORD.

ESPECIALLY RECOMMENDED FOR

Dyspepsia, Nervousness, Exhaustion, Headache, Tired Brain,

And all Dieases arising from Indigestion and Nerve Exhaustion.

This is not a compounded "patent medicine," but a preparation of the phosphates and phosphoric acid, in the form required by the system.

It aids digestion without injury, and is a beneficial food and tonic for the brain and nerves.

It makes a delicious drink with water and sugar only, and agrees with such stimulants as are necessary to take.

Dr. E. W. HILL, Glens Falls, N. Y., says: "An excellent remedy for atonic dyspepsia, nervous and general debility, or any low state of the system."

Dr. D. A. STEWART, Winona, Minn., says: "Entire satisfaction in cases of perverted digestion, loss of nerve-power, mal-nutrition and kindred ailments."

Dr. G. H. LEACH, Cairo, Ill., says: "Of great power in dyspepsia and nervous prostration."

John Farris' Patent Banjolin.

Soprano, Alto, Tenor and Bass, with Waterproof Heads. Banjolin Quartette and Quintette.

This is the finest toned and most musical stringed instrument in the world. It has four strings, E. A. D. G. Tuned and fingered like the violin and vibrated with a shell. Any music can be played on it as written, hence it has the same capacity as the violin, and the twenty-five frets on the finger board makes it the easiest instrument in the world to play. The patent graduating sounding post increase and diminish the tone. Everybody is pleased with it; it has no equal; there is but one step between it and the harp of Heaven.

THE DIAMOND BANJOLIN

Is used nightly in the leading music halls of London, England, and by Miss Lillie Western, the great musical artiste of the world, who says it is the king of all instruments.

PRICE FROM $16.00 TO $45.00.

It is the only musical instrument you can live with a lifetime.

JOHN FARRIS,

Inventor, Patentee and Maker, **HARTFORD, CONN.**

JOHN FARRIS' DIAMOND BANJOS,

Soprano, Tenor, Bass and Double Bass. Made with Waterproof Heads.

The Yale First and Second Banjo Clubs use them exclusively and pronounce them the King of Banjos; C. E. Austin, tutor. The Phillips Exeter Academy "Diamond Banjo Club, J. H. Batchelder, tutor, says they are without an equal. The Harvard Club is trying them and will use them exclusively. The Trinity Banjo Club also use them and declare them the best.

THE DIAMOND BANJOS are in use from Maine to TEXAS, from London, England, to Athens, Greece. They are all made by hand, will last a lifetime, and are acknowledged to be the standard of the World and the finest made.

Best Banjo Strings 10 cents, or $1.00 per dozen. Guitar strings, 15 cents, or 75 cents per set. Sent on receipt of price.

A MUSICAL WONDER.

THE PATENT BANJAY.

With five strings, tuned and played like the banjo. Has no false strings. A perfect, true scale the entire length of the finger-board; will stand in tune equal to a piano, is strictly a pure, sweet, smooth, brilliant, fine, musical, cultivative tone, with great power. The banjo players all go wild over it and say they have no further use for their banjos, some say it is a perfect music box, others claim it is superior to the piano. We make tenor, baritone and bass. Price, from $30 to $50. All with waterproof heads.
